TOPPER 103S VACUUM CLEANER

The TOPPER 103S is the most versatile dry vacuum cleaner for daily use.

It is made of high quality plastic resistant to knocks and damages.

Advantages:

- ➔ Easy Storage
- ➔ Strong Suction

SPECIFICATIONS:

Usage	Dry
Power	1000/2-Staged
Voltage	220-240V
Frequency	50Hz
Weight	7Kg
Cable Length	8.5m
Country of Origin	Italy
Water Lift	2200mm
Airflow	180m³/h
Tank Capacity	22L
Noise Level	66dB
Accessories Diameter	36mm
Material	Plastic

LEO

The LEO is powerful yet silent, making it ideal for use in offices, homes and hotels. It is available in two tank capacities.

Advantages:

- ➔ Silent
- ➔ Compact for easy storage
- ➔ Sturdy and durable

SPECIFICATIONS:

Usage	Dry
Power	1300/1-Staged
Voltage	220-240V
Frequency	50Hz
Weight	8Kg
Cable Length	8.5m
Country of Origin	Italy
Water Lift	2870mm
Airflow	210m³/h
Tank Capacity	12.5L / 16.5L
Noise Level	58dB
Filter	Cartridge Filter

Accessories Diameter	36mm

ECO LP 1/12

ECO LP 1/12 is a dry vacuum cleaner that is class B certified. It is extremely compact and easy to use. With a commitment to environmental sustainability, the ECO LP 1/12 is made up of IPC's Black is Green recycled plastic. It is perfect for use in hotels, hospitals and offices, and operates easily on different type of surfaces like carpets and hard floors.

SPECIFICATIONS:

Usage	Dry
Motor	840 - 900 MAX
Voltage	220-240 V
Frequency	50 - 60 Hz
Weight	5.8 KG
Country of Origin	Italy
Waterlift	2,260 MM H2O
Airflow	158m³/h
Capacity	12 L
Noise Level	59 dBA
Diameter	36 MM
Cable Length	8.5 M

TOPPER 315

The TOPPER 315 is suitable for daily use in small to medium areas. Despite its small size, it is equipped with strong motor for efficient suction.

Advantages:

- ➔ Compact for easy storage
- ➔ Robust plastic tank
- ➔ Easy operation

SPECIFICATIONS:

Usage	Wet & Dry
Power	1000/2-Staged
Voltage	220-240V
Frequency	50 - 60Hz
Weight	8.5Kg
Cable Length	8.5m
Country of Origin	Italy

GPT Leaf Blower

The GPT Leaf Blower is a battery operated leaf blower that comes with adjustable speed. A 56V lithium-ion battery enables longer working hours and efficiency. It is suitable for use indoors as it does not emit any unpleasant smell due to petrol or diesel.

Advantages:

- ➔ Adjustable speed
- ➔ Easy removal of battery for charging
- ➔ Easy to maintain
- ➔ Strong lithium battery

SPECIFICATIONS:

Rated Voltage	58 V Max
Air speed	250 KM/h ; 130 MPH
Air volume	480 CFM

AB 03 / AB 05 Air Blower

The AB 03 and AB 05 Air Blowers are equipped with adjustable knobs to allow selection of air speed. They have durable frames that can withstand long term usage. The AB 05 is also stackable, thereby saving space in storage.

Advantages:

- ➔ Easy to transport with rear wheels and handle
- ➔ Airflow can be regulated with a three-speed knob
- ➔ Equipped with strong motor cover to prevent possible damage
- ➔ Low noise makes it suitable for use in hotels etc.

SPECIFICATIONS:

Voltage	220 V
Frequency	50 Hz
Power	900 W

SINGLE DISC FLOOR SCRUBBERS (TESTA)

The TESTA series combines functionality with design. With them being robust, they are the preferred machine for various basic cleaning purposes. Materials are chosen carefully to make the scrubbers safe for all users. Designed in Singapore.

Advantages:

- ➔ Strong stainless steel tank
- ➔ Equipped with 2 motos
- ➔ Easy operation

TESTA 43 SINGLE DISC SCRUBBER

TESTA 43 is a single disc machine that is robust and easy to maintain. It is particularly suitable for both light and heavy duty works. Testa 43 combines high motor power with compactibility, to ensure no compromise in working in small areas. They are suitable for scrubbing of hard and vinyl floors and carpet cleaning.

SPECIFICATIONS:

Voltage	220 V
Weight	41 Kg
Power	1000 W
Frequency	50 Hz
Working Width	17 In
Rotation Speed	154 RPM
Noise Level	62 dB
Dimension	56 x 45 x 120 cm

TESTA 50 SINGLE DISC SCRUBBER

TESTA 50, a larger based single disc machine, is suitable for larger areas. cleaning. It is relevant for countries where a need for 21" machines is present. They are suitable for scrubbing of hard and vinyl floors and carpet cleaning

SPECIFICATIONS:

Voltage	220 V
Weight	49 Kg
Power	1500 W
Frequency	50 Hz
Working Width	21 In
Rotation Speed	154 RPM
Noise Level	62 Db
Dimension	68 x55 x 120 CM

TESTA HD

TESTA HD series of TESTA machines are equipped with high performance motors, together with its rotational speed of 175 RPM, it is the desired machine for both conventional maintenance cleaning and basic stone care maintenance. It combines versatility and efficiency with modern ergonomics. Machines are available in different strength, 1.5HP and 2.0HP, to cater to different needs. They are suitable for scrubbing of hard floors; carpet cleaning; dry maintenance like stripping and polishing.

SPECIFICATIONS:

	TESTA HD 1.5	TESTA HD 2.0

BURNISHER

DR1500H High Speed Burnisher

The VIPER DR1500H is an Ultra High Speed (UHS) burnisher designed to cover large areas with less maintenance costs. It is used to bring longlasting shine to hard floors. It is simple and easy to use. The VIPER DR1500H is robust, reliable and service friendly.

Advantages:

- ➔ Easy to use with little training required
- ➔ Space saving with foldable handle
- ➔ Ergonomic adjustable handle for easy manipulation
- ➔ High mobility with large wheels
- ➔ Safety lock-out switch present for safety

Machines are equipped with a safety feature where simultaneous triggering of switch and safety button is needed to activate the machine.

Smooth motor transition is made possible with 3-gear motor. This also lowers the total noise level, allowing the machine to be more silent.

Strong motors enable the addition of up to 3 units of heavy weight. This increases the weight of the machine to allow more effective work to be done.

Machine can be used with different accessories and tools for different functions and different floor types.

Machines can be paired with any type of accessories to carry out different jobs.

KLINDEX SUPERSHINE & SPONGELUX

SUPERSHINE & SPONGELUX Kit is a new and revolutionary diamond discs used for restoration of gloss on marble floors and terrazzo. When used regularly, it can keep floor bright and well-maintained. Made in Italy.

Advantages:

- ➔ Easy to use
- ➔ Suitable with single disc machines or auto-scrubbers
- ➔ Able to remove scratches, clean and polish
- ➔ Comes in Supershine Plus and Supershine Soft
- ➔ Uses only water – cost saving

KLINDEX KP 85 POLISHING POWDER

KP 85 POWDER is one of the best polishing powder and an excellent chemical for daily cleaning of hard surfaces. It cleans and polishes a wide range of surfaces including marbles, granites and even glass. Made in Italy.

KLINDEX STONE SOAP

STONE SOAP is a daily cleaner and sealer soap for polished marble floors. It leaves the floor waterproof and glossy. It is recommended to use STONE SOAP after powder polish. Made in Italy.

KLINDEX GS DIAMOND TOOL 6 SEGMENTS 5.5" (140MM)

GS DIAMOND TOOL 6 SEGMENTS are trapezoid diamond tools for grinding granite floors. It is perfect for use with Levigheator 645. It is available in various grits (GS 1 – 3). Made in Italy.

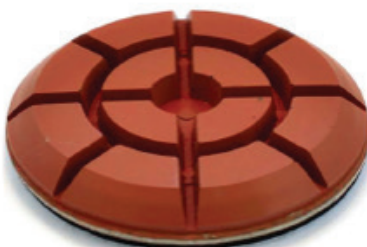

KLINDEX MS DIAMOND TOOL 7 SEGMENTS 5.5" (140MM)

MS DIAMOND TOOLS 7 SEGMENTS are metallic diamond discs for grinding marble floors. It is perfect for use with Levigheator 645. It is available in various grits (MS 0 – 2). Made in Italy.

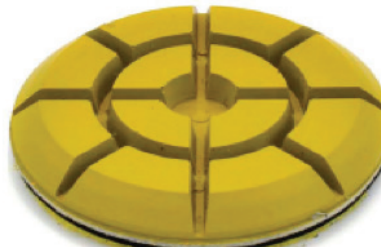

KLINDEX JUMPER RED

JUMPER RED is a resin-bond diamond disc for polishing granite floors. It is available 3" (75mm) and 4" (100mm), and comes in various grits (jumper yellow 3 – 8) . Made in Italy.

KLINDEX JUMPER YELLOW

JUMPER YELLOW is a resin-bond diamond disc for polishing marble floors. It is available 3" (75mm) and 4" (100mm), and comes in various grits (jumper yellow 3 – 8) . Made in Italy.

ORBITAL ACE

The Orbital ACE is a breakthrough in the range of single disc machines. It combines orbital and rotary motions into one, thereby causing constant vibration that is able to increase cleaning efficiency. This roto-orbital movement also gives the machine its great stability, thus enhancing the performance of a regular single disc machine. Users will find it easy to use as they will face little resistance from the machine, as such training time is greatly reduced.

SPECIFICATIONS:

Voltage	220 V
Weight	50/55 Kg
Power	1100 W
Frequency	50 Hz
Working Width	17 In
Rotation Speed	1490 RPM
Noise Level	56 dB
Dimension	58 x 46 x 118 cm

✓ ADVANTAGES

SAVE TIME

The roto-orbital motion increases cleaning efficiency. With great stability, less training time is also required.

SAVE COST

The Orbital Ace consumes less energy than a regular single disc machine.

SAVE WATER

The machine prevents water from being dispersed from cleaning radius, thus less water is used.

SAVE THE ENVIRONMENT

As cleaning agent and water is well kept within the cleaning radius, less of such is being used. Also, the mechanism of this machine allows the use for less or no cleaning agent for regular light daily maintenance.

Orbital Ace can be applied on different types of floor, be it carpet, hard floor, vinyl, or different types of stones. With its roto-orbital motion, the Orbital Ace ensures that every fibres and pores of the floors are cleaned and maintained.

Machines are equipped with a safety feature where simultaneous triggering of switch and safety buttons is needed to activate the machine.

Chasis can be lifted over the motor to increase total working weight on target floor. This allows more pressure to be exerted, making work more effective.

Machine comes with large wheels and stable chasis for easy manoeuvrability. Large wheels on ground also makes working easier and more efficient.

ORBITAL EASI

Looks like a regular scrubber, but works otherwise! The Orbital EASI is a breakthrough in the range of single disc machines. Orbital EASI works in a roto-orbital motion that produces consistent vibrations. These vibrations promote efficient cleaning as it allows full and prolonged contact of cleaning pad to target floor.

Unlike a normal floor scrubber, the Orbital EASI is not only stable, but very easy to control. Its stability is provided by its consistent vibration. As such, users will find it easy to use as they will face little resistance from the machine, thereby reducing training time and ultimately cost.

SPECIFICATIONS:

Voltage	220 V
Weight	54 Kg
Power	1100 W
Frequency	50 Hz
Working Width	17 In
Rotation Speed	1490 RPM
Noise Level	56 dB
Dimension	58 x 46 x 118 cm

✓ ADVANTAGES

SAVE TIME

The roto-orbital motion increases cleaning efficiency. With great stability, less training time is also required

SAVE COST

The Orbital EASI has less current consumption than a normal floor scrubber

SAVE WATER

The machine prevents water from being dispersed from cleaning radius, thus less water is used

SAVE THE ENVIRONMENT

Less cleaning agent and water are used as they are well kept within the cleaning radius.

Like the Ace, EASI can also be applied on different types of floor, be it carpet, hard floor, vinyl, or different types of stones. With its roto-orbital motion, the Orbital Ace ensures that every fibres and pores of the floors are cleaned and maintained.

HARD FLOOR

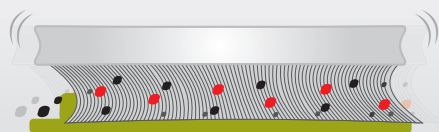

CARPET

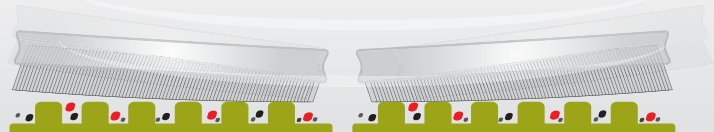

MARBLE

ORBITAL EASI

Orbital EASI cleans by constant vibration directly on the floor. This vibration allows dirt to be shaken off the ground and removed easily. As it does not swing, the EASI is able to grip completely to the surface, allowing constant pressure to the floor surfaces.

NORMAL FLOOR SCRUBBERS

Normal floor scrubbers work by swinging from left to right, creating a hovering effect. This prevents full contact with the floor, thus less cleaning is done

MAXI ORBIT

The Maxi Orbit combines two mechanical movements: orbital and rotational. These cause vibrations that can easily perform cleaning, polishing, de-waxing, micro-polishing jobs on different surfaces like carpet, stoneware, parquet and natural stones. The combined orbital-rotatory movements enable fast, effortless cleaning; the vibrations take the dirt upwards so that the pad can easily capture them without the use of chemical products or aspirators. The double motion reduce machine attrition with surfaces, with no loss of efficiency and lower power consumption.

WALK-BEHIND SCRUBBER DRIERS

VIVO 35B WALK-BEHIND SCRUBBER DRIER

The VIVO 35B is recommended for cleaning of areas where size is a constraint. Despite it being small, the VIVO 35B does not pale out in performance. Being battery-operated, it is not restricted by its cable length and thus can be used anywhere.

Advantages:

- ➔ Easy operation
- ➔ Low maintenance
- ➔ Compact for narrow work spaces
- ➔ Easy storage

SPECIFICATIONS:

Voltage	24 V
Battery	2 x 12V

50B WALK-BEHIND SCRUBBER DRIER

The 50B is a simple yet effective scrubber drier that is suitable for both maintenance and deep area cleaning. It is proven to be both cost and time effective.

Advantages:

- ➔ Easy operation
- ➔ Low maintenance
- ➔ Compact for narrow work spaces
- ➔ Time saving and cost effective

WALK-BEHIND SCRUBBER DRIERS

MIRA 40

Small • Compact • Strong

The MIRA 40 is lightweight and compact scrubber drier that gives users the flexibility to work in almost all type of spaces.

MIRA 40 is equipped with a stainless steel chassis which makes it strong and durable. Despite its 3L solution tank capacity, it has an amazing cleaning capacity of 100 square metres! This is possible due to its 'eco' mode that controls the water distribution in a timed manner. In addition, it's 36V/13Ah lithium-ion battery give the user an hour of use upon full charge. Thanks to its flexible drawbar that allow access to the narrowest space and under fixtures, it is the essential machine for deep cleaning of small rooms or areas that are full of furniture!

Apart from being a scrubber-drier, the MIRA 40 can also be used for other applications like de-waxing and light polishing due to its liftable squeegee, weight and working pressure.

With its strong motor and different accessories (such as brush types and pad holder) available, the MIRA 40 is a really versatile machine. Together with its variable dual brush rotation speed, this is the machine to use for most functions and in most areas!
