

QuickMop can be paired with the many different QuickSwab microfibre cleaning pads for varied purposes

Disposable mopping pads

High quality mopping pads

Pick from the range of different mop heads and simple snap it onto QuickMop to perform the desired function.

Plastic attachment

Aluminium attachment

Round mop

Window tool

Thanks to a special gadget, the PAPI can also be used as a window/wall cleaning tool. A stable mist is dispensed even if the mop is upside down. Just attach PAPI to our window wiper and the matching wiper pad for window cleaning.

Can be used for daily maintenance of window

Wiper pads allow non-directional cleaning.

The PAPI and MMS can be attached to a grout brush to effectively remove any presence of unsightly grout. The grout brush is made of high quality bristles and is constructed in a way that is able to effectively scrub off grout.

YOUR NEEDS. OUR PRIORITY

QUICKMOP

BUCKETLESS CLEANING

QuickMop is a series of bucketless mopping systems that includes two types of mops - the PAPI and the MMS. It can then be utilized with QuickSwab - a diverse range of microfibre cleaning pads for thorough cleaning.

QuickMop is a fully integrated system that promotes fast and efficient cleaning while eliminating the need for a bucket or wringer. It brings both convenience and efficacy to the users. QuickMop is specially designed to sustain robust uses and it caters to professional industrial use in areas like shopping malls, schools, restaurants, and other common areas, where routine cleaning is required. In addition, it has also been designed for use in hospitals and clinics where quick response, effective and targeted cleaning are essentials for a clean and hygienic environment.

Both the MMS and PAPI use aluminium poles that are lightweight and easy to manoeuvre. It adds no stress to the cleaner while in use. Despite them being light, they are of industrial strength and quality. The QuickMop effectively reduces the use of chemical and water, making it cost effective.

✓ ADVANTAGES

- No bucket or wringer
- Save water
- Save cleaning agent

THE PAPI

Newly improved addition to the QuickMop series that can do both floor and window cleaning. A simple press on the trigger will allow the dispense of a uniformed spray of liquid. It has everything the MMS has, and much more!

✓ THE PAPI'S FEATURES

Easy removal of 450ml anti-leak bottle if needed

Liquid dispensed as mist for uniform spreading

Egonomic trigger for easy handling

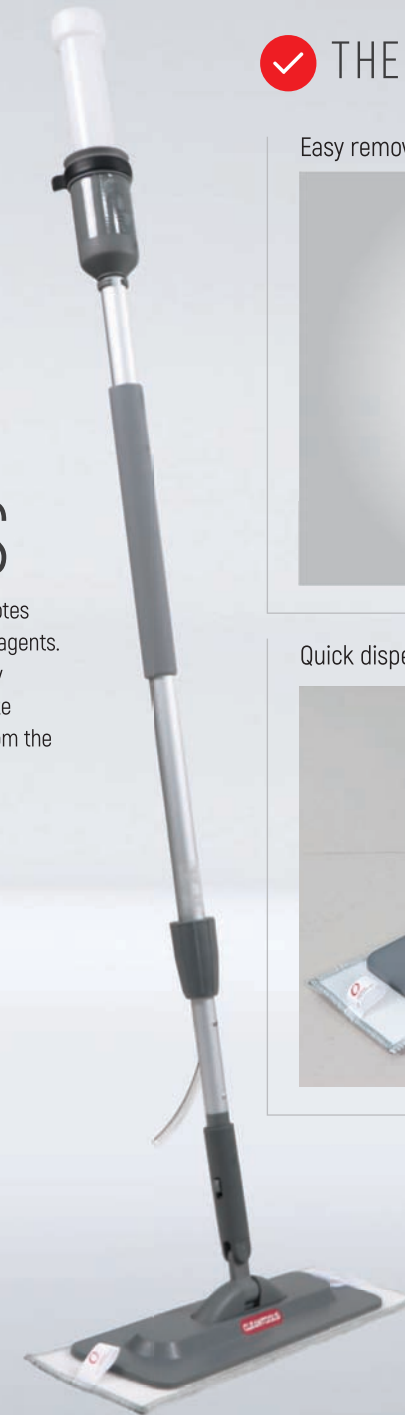

Easy refill of liquids without removing of bottle

THE MMS

First generation QuickMop that promotes minimal yet effective use of cleaning agents. Dispensing of liquid is easy, just gently squeeze the bottle and the appropriate amount of water will be dispensed from the water tube onto the targeted floor.

✓ THE MMS'S FEATURES

Easy removal of 350ml anti-leak bottle if needed

Easy adjusting of pole's length to suit different users

Quick dispense of cleaning agent over target floor

Use with a bottle pouch to reduce downtime
