DISINFECTION MIST SPRAYER

This Disinfectant Mist Sprayer employs the concept of gasification that allows disinfectant to be sprayed out as high speed mist particles. With different nozzle sizes, the particle size of the mist can be controlled thereby making it suitable for different venues. The sprayer comes with a filter that is easily accessible and can be cleaned whenever needed. With a scale imprinted on the chemical container, users can easily measure the amount of chemicals to use per time.

TECHNICAL SPECS

| | |
|-------------------------|--------------------|
| Voltage: | Ac 220V~ 50Hz |
| Power Output: | 800 W |
| Injection Distance: | 3 - 6 M |
| Working Temperature: | 40 C° |
| Droplet Size #1: | 15 um |
| Droplet Size #2: | 20 um |
| Droplet Size #3: | 40 um |
| Droplet Size #4: | 60 um |
| Droplet Size #5: | 80 um |
| Tank Capacity: | 1.5 L |
| Weight (without water): | 3 Kg |
| Noise Level: | < 70 dB |
| Dimension[L x W x H] | 570 x 215 x 160 mm |
