Noise Level:	54 dB
Working Width:	17 In
Rotation Speed:	150 RPM
Additional Weight:	2 Pcs

← PRO 2.5

The machines are equipped with a safety feature that requires the simultaneous activation of both the switch and the safety button to operate.

A smooth motor transition is achieved with a 3-gear motor, which also reduces the overall noise level, making the machine quieter.

The Stane Pro is compatible with various accessories and tools, enabling it to perform multiple functions and adapt to different floor types.

Strong motors enable the addition of up to 3 units of heavy weight.

This increases the weight of the machine to allow more effective work to be done.

The Stane Pro can be paired with a wide range of accessories to perform various tasks.
