

IoT Water Flow Meter

Smarter Water Tracking. Better Cleaning Efficiency

Boost cleaning efficiency with real-time water tracking.

Our **IoT-enabled Water Flow Meters** integrate directly into **pressure washers** and other **water-intensive equipment**, streaming **live data** to a **central App** and **Web Dashboard**.

Why It Matters?

In a sector where **efficiency is everything**, our system lets you **monitor, analyze, and optimize water usage** with full **control and visibility**.

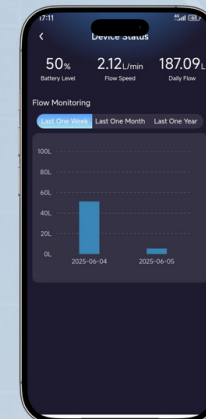

Key Features

- Real-Time Monitoring via IoT sensors
- Mobile App & Web Dashboard for 24/7 access
- Data Analytics to track trends and anomalies
- Reports for Audits & Optimization
